REMARKS

The Amendment provides new paragraphs on pages 2 and 4 of the specification, as filed.

The Amendment cancels claims 1-21, as initially presented in the parent international application, as filed, and substitute claims 22-41, therefor. Claims 22-41 express applicant's invention in clearer, more precise terms and are drawn to distinguish over the three German patents cited in the international search report, prepared by the Australian Patent Office on January 6, 2004.

Minor drawing changes to FIGS. 7 and 8 are proposed for consideration by the Examiner. Upon approval, attorney for applicant will provide a new sheet of formal drawings, including FIGS. 7 and 8, as revised.

The revisions made to the instant application correspond to the revisions made to the parent international application under Article 34 of the Patent Cooperation Treaty.

Prompt, and favorable, consideration of the application, as revised, is requested.

Respectfully submitted,

Martin P. Hoffman
